		Job Name:

Ticket? Yes No Invoice? Yes No

Display Logs Phone Payment History Notes: No Yes

The Order Header Screen allows entry of such information as the customer p.o. #, job name, and special instructions for the order. The search buttons (magnifying glasses) indicate that there is a lookup available for the shipping state, ship via, salesperson, terms, and job name. The first button in the lower left corner of the screen (Display Logs) will allow the operator to display the history log and the transmission log for the order. The other button (Payment History) will display payments against the invoices that have been generated from this order, whether it is a charge sale or a cash sale. The <Contact Info> button will display a list of employees for this customer with their email addresses and phone numbers. To proceed to the line items on the order, click on the <ITEMS> button with your mouse.

The line-item screen allows the quick adding of new items at the bottom of the screen. After an item has been added, it can be changed by clicking on the line item itself and the next screen will be displayed that allows changes or the entry of comments. Eight line items are displayed on the screen, but if there are more items on the order, a scroll bar will appear and the operator can scroll up and down through the items. When the operator has finished entering the items, they hit the OPTIONS button and are given the options to complete the order.

Sales Order Entry – adding Multiple Line Items

Click on the Grid on the right of the magnifying class for the Part #, and the system will allow entry of the line items from a spreadsheet. The spreadsheet can be built by entering a list of manufacturers, company house #'s, customer part #'s, previous sales for this customer (stock only), and items most frequently bought by the customer. The operator can select from only the active items for the branch or all items in the system that meeting the selections above.
